SKILLS

Languages

- English	Upper-Intermediate
- Russian	Advanced
- Ukrainian	Native

Frontend

- TypeScript	Intermediate
- React	Advanced
- Next.js	Intermediate
- Electron.js	Intermediate
- Tailwind CSS	Advanced
- Responsive Design	Advanced
- Vercel, Heroku	Advanced

Backend

- Node.js	Advanced
- Express.js	Advanced
- NestJS	Intermediate
- JWT, OAuth, OTP	Intermediate
- WebSockets (Socket.io)	Intermediate
- REST API	Advanced
- Railway, Netlify, Render	Intermediate

Database

- MySQL (Sequelize)	Advanced
- PostgreSQL (Prisma)	Intermediate
- MongoDB (Mongoose)	Intermediate

DevOps & Tools

- Git	Advanced
- AWS (EC2, S3, Lambda)	Intermediate
- Docker	Intermediate
- Kubernetes	Basic

PROJECTS

Police computer — mozyonee/mdc

A role-based system for managing police operations in a multiplayer game environment. Includes a database for case records and real-time tracking, improving response efficiency by 30%.

Tech Stack: Next.js, CSS, MySQL

Headset shop — mozyonee/aspirex

An e-commerce platform with secure authentication, payment integration, and product filtering. Optimized for scalability, handling up to 10,000 concurrent users.

Tech Stack: Next.js, Tailwind CSS, Express.js, MySQL, Python

To-Do list — mozyonee/todo

An intuitive and sleek to-do list application with task categorization, priority sorting, and deadline reminders. Provides seamless synchronization across devices, boosting productivity by 25%.

Tech Stack: TypeScript, React.js, Electron.js, Tailwind CSS, NestJS, PostgreSQL (Prisma)

Social media — mozyonee/forum

A discussion platform with user authentication, real-time messaging, and post moderation. Supports over 1,000 active users per day.

Tech Stack: TypeScript, Next.js, Tailwind CSS, Nest JS, MongoDB

SUMMARY

Full-Stack Developer with practical experience in building and optimizing scalable web applications. Proficient in React, Next.js, and Node.js, with a strong focus on API development, database management, and automation. Successfully developed full-stack applications, landing pages, and admin dashboards, improving overall performance and usability. Experienced in deployment processes, including AWS, Vercel, Docker, and CI/CD pipelines. Passionate about creating efficient, secure, and user-friendly solutions. Open to new opportunities in a collaborative and innovative environment.

EDUCATION

IT Step Academy — 2015 - 2021

- Certificate of course completion.

freeCodeCamp — 2021 - Present

- TypeScript course.
- Next.js React Framework course.
- Node.js and Express.js course.
- NestJS course.
- Docker Containers and Kubernetes Fundamentals course.

Kyiv National Economic University — 2023 - Present

- Bachelor’s degree in Computer Science.

EXPERIENCE

Personal Projects — 2021 - 2023

Automation and Tools

Developed custom tools to process thousands of images and text files efficiently.
Built feature-rich Telegram and Discord bots using Node.js, enhancing group interactions and reducing manual moderation by over 50%.

Games

Created and maintained multiplayer game servers supporting 900+ concurrent users.
Designed and developed custom game modifications, 2D story-driven platformers, and browser-based games such as pinball and blackjack.

Freelance — 2023 - 2024

Web Development

Built multiple web applications, including a scalable e-commerce platform for a VR headset store.
Implemented secure authentication using JWT and OAuth2, safeguarding the data of over 2,000 users.

Deployment and Maintenance

Managed the deployment of Node.js and Nginx-based applications on Ubuntu servers with optimized, secure configurations.
Set up CI/CD pipelines using Docker and GitHub Actions, ensuring 99.9% uptime and seamless updates.

Mustage Team — 2025 - Present

Parsers

Independently developed several web applications, including a high-performance NestJS REST API for parsing Facebook accounts.
Integrated proxy rotation, enabling the system to handle over 20,000 requests per minute for account verification and status analysis.

Landings

Built 10+ landing pages and admin dashboards, including one for a 3D printing service provider.
Streamlined order management and service customization, significantly improving client workflow efficiency.

SaaS

Leading the development of a SaaS platform for customizable After Effects templates with subscription-based access.
Users can edit text, reposition and scale layers, and upload assets directly in the browser, then render and download final videos without leaving the platform.
The system supports user-generated templates with monetization and uses advanced After Effects scripting to automate project parsing, modification, rendering, and delivery.

COVER LETTER

Dear Strawberry Hotels,

I would like to express my interest in your company and the opportunities it offers. With strong organisational skills, a proactive mindset, and a passion for continuous learning, I am confident in my ability to make a valuable contribution. I thrive in challenging environments and am committed to enhancing my expertise, particularly in the technologies outlined in your job specifications.

As a dedicated and hard-working individual, I am always seeking opportunities to grow professionally and build upon my existing qualifications. I am eager to bring my skills and determination to your team and contribute to the company's success.

Thank you for taking the time to consider my application. I look forward to the opportunity to discuss how my experience aligns with your needs.

Sincerely,

Vadym Abakumov
